PRABHJOT SINGH

Full Stack Developer

India | +91 6375157148 | ps7584153@gmail.com | [github](#) | [linkdin](#)

SUMMARY

Motivated Full Stack Developer with hands-on experience in developing scalable web applications and enterprise-grade REST APIs. Strong exposure to Angular-based frontend development and .NET backend API integration, with practical experience in real-world project workflows and collaborative team environments. Experienced in building maintainable applications following clean and structured coding practices.

SKILLS

◉ **Frontend:** Angular | Next.js | JavaScript | TypeScript | HTML | CSS

◉ **Backend:** .NET Web API | C# | PHP | Laravel

◉ **Databases:** SQL | MySQL | SSMS

◉ **Tools & Concepts:** Git | REST APIs | API Integration

EXPERIENCE

Pizone Infotech – Software Developer (8 Months)
Worked on a large-scale enterprise project using Angular for frontend development and .NET for backend API integration. Gained hands-on experience in full-stack development, API consumption, debugging, and collaborative teamwork in a professional environment.

PROJECTS

Snera – Skill-Based Collaboration Platform
A skills-based collaboration platform connecting freshers and students with complementary technical skills to build real-world projects. Enables small business owners to post affordable project ideas, helping student teams gain hands-on experience and grow into freelance teams or mini startups.

KEY ACHIEVEMENTS

• Worked on enterprise-level Angular modules integrated with .NET APIs
• Improved frontend–backend data flow and API consumption practices
• Collaborated with cross-functional teams following real-world development workflows

TOOLS & ENVIRONMENT

Visual Studio, Visual Studio Code, Postman, GitHub, SQL Server Management Studio

EDUCATION

Bachelor of Computer Applications (BCA)
Maharaja Ganga Singh University | 2022 – 2025
Masters of Computer Science (M.Sc)
Maharaja Ganga Singh University | 2025 - Present
